DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggest a carton or blank comprising a bottom panel hingedly connected to a side panel along a fold line, the bottom panel having a plurality of openings, each configured to receive one of a plurality of articles and retain the article by a flange thereon, each opening being located adjacent the fold line. The fold line having at least one frangible portion being positioned in proximity one of the openings such that moving a respective one of the articles within the opening urges the flange of the article against one of the frangible portions to initiate partial breakage of the one frangible portion to release a respective article from the carton through the one opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
